Detailed Office Action

Claim Objections

Claim 11 is objected to because of the following informalities:

Claim 11, line 22, "transmission/reflection" should be changed to "transmission and reflection".

Claim 11, line 5, the word "operable" should be deleted.

Claim Rejections - 35 U.S.C. § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8, 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 8, the phrase "said optical source comprises the emitter of claim 11" is indefinite. It is not clear claim 8 is an dependent or independent claim.

With respect to claim 10, the phrase "the use of the emitter specified under claim 11" is indefinite. The claim is a method claim. However, it is depended on an apparatus claim

(claim 11).

Claim 9 is rejected as being depended on the rejected claim.

Claims 8-10 would be allowable if Applicant amend the claims to over come U.S.C 112 rejection above and add all the limitations of the base claim 11 to the claim.

Allowable Subject Matter

Claims 11,2-7 are allowed.

Prior arts of record does not disclose an optical system including: a first and a second partial reflecting mirrors, adjusting the fiber length and the transmission and flection ratio which structurally arranged and functionally operated as claimed in claim 11.

Response to Arguments

Applicant's arguments with respect to claims 2-11 have been considered but are moot in view of the new ground(s) of rejection.
